PRESENTER BIO

Dr. Dhaval Gajjar is an Assistant Professor at Clemson University's Department of Construction Science and Management in the College of Architecture, Arts and Humanities. Dr. Gajjar possesses a Bachelor of Science degree in Biochemistry and Master of Science and Ph.D. in Construction Management, all from Arizona State University. He has significant construction industry experience working as a Project Manager for both general contractor and an owner organization responsible for large remodel, renovation and TI projects. Dr. Gajjar also has over 11 years of significant research experience related to project delivery and procurement, performance metrics and performance measurement for building materials and risk minimization. He has authored thirteen (13) refereed journal publications, one book chapter, and fifteen (15) conference presentations disseminating the research results. He has also conducted over fifty (50) industry presentations educating the industry professionals on using the research tools. He is also a recipient of 2014 IFMA Karen Marcel Scholarship Award and 2015 IFMA Utilities Council Scholarship Award and is a certified Facility Management Professional (FMP) and Sustainable Facility Professional (SFP).
